

## **ACKNOWLEDGEMENTS**

We owe our greatest debt of appreciation to the clergy, staff and congregation of the Alfred Street Baptist Church, particularly to Reverend John O. Peterson and Ms. Cynthia Jenkins. We also wish to thank Robert J. Nash F.A.I.A & Associates, particularly Mr. Robert Nash and Mr. Dwayne Price. We wish to extend our appreciation to the employees and subcontractors of Falls Church Construction for their cooperation during both phases of archaeological study, particularly to Mr. Larry Reed. We are particularly appreciative for the use of the Mustang for the removal of overburden during the evaluation phase of the archaeological study. Site Inspector, Mr. Larry Gavin and Preservation Archaeologist, Ms. Francine Bromberg of the City of Alexandria made daily visits to the site during the evaluation phase of the archaeological study and their insight and input were much appreciated.

Al Cox, Architect for the City of Alexandria visited the site and provided input on the interpretation of the foundations. Architect Richard Bierce, who has studied the historic structure, also visited the site and provided insights on the interpretation of the foundations.

The historical research was assisted by Mr. Michael T. Miller of the Lloyd House Library, Mr. Wilson Gaines, historian of the First Baptist Church, Mr. Brian Connely of the Virginia Room of the Fairfax City Library, and the City of Alexandria Archaeology staff, especially Ms. Francine Bromberg, Dr. Pamela Cressey, and Dr. Steven Shephard, all of whom provided valuable suggestions, information, and advice.
